Consideration	Characteristics of Area			
Flood Vulnerability	Low	Medium	High	
Heat Vulnerability	Low	Medium	High	
Social Vulnerability	Low	Medium		

The Village of Old Mystic is located along the upper bounds of the Mystic River, south of its main tributary Whitford Brook. The surrounding area is characterized by moderate flood and heat vulnerability, as well as relatively low social vulnerability. Multiple historic resources are located within Old Mystic, and many of the local roads, including Main Street, lie within the flood zones of the tidally-influenced Mystic River.
